PLATFORM DEEP DIVE / Core components / Core extensions / Audit log

The Audit Log service provides a centralized location for all audit events. The following details are available for each event:

- **Timestamp** - the date and time the event occurred, the timestamp is displayed in a reversed chronologically order
- **User** - the entity who initiated the event, could be a username or a system
- **Subject** - the area or component of the system affected by the event

► Possible values

- **Event** - the specific action that occurred

► Possible values

- **Subject identifier** - the name related to the subject, there are different types of identifiers based on the selected subject

- **Version** - the version of the process definition at the time of the event
- **Status** - the outcome of the event (e.g. success or failure)

Audit Logs

Filtering

Users can filter audit records by event date and by selecting specific options for User, Subject, and Subject Identifier.

- Filter by event date

The screenshot displays the 'Audit Logs' interface. At the top, there's a header 'Audit Logs'. Below it, a table lists audit events. The table has columns: Timestamp, User, Section, Subject, Event, Subject Identifier, and Status. Several of these columns have a dropdown arrow icon next to them, indicating they are filterable. A date picker is open over the 'Timestamp' column, showing a calendar for January 2023. The date '20' is selected. The table contains several rows of data, each representing an event. The status of each event is shown in a green box with the word 'SUCCESS'. To the right of each row, there is an eye icon, which is used to view the details of that specific event.

Timestamp	User	Section	Subject	Event	Subject Identifier	Status
20 Jan 2023		Process Instance	Process Instance	View	b1a7359c-0d45-4c3e-8bd1-ed5c8f8e	SUCCESS
20 Jan 2023		Process Instance	Process Instance	Start	2e3ba843-3e8a-43f9-a4cf-e599bd7d19bf	SUCCESS
20 Jan 2023		Process Definition	Process Definition	Created	name_of_the_process	SUCCESS
20 Jan 2023		Node	Node	Update	node_name	SUCCESS
20 Jan 2023		Node	Node	Update	test_node	SUCCESS
20 Jan 2023		Action	Action	Created	name_of_the_action	SUCCESS
20 Jan 2023		Connector	Connector	Delete	8db94d59-837f-4c42-a60c-3d38b110c19	SUCCESS
20 Jan 2023		Connector	Connector	Created	8db94d59-837f-4c42-a60c-3d38b110c19	SUCCESS

- User - single selection, type at least 4 characters
- Subject - single selection
- Subject identifier - exact match

Audit log details

To view additional details for a specific event, users can click the eye icon on the right of the event in the list. Additional information available in the audit log details window includes Here you have the following information:

- Event - the specific action that occurred
- URL - the URL associated with the event
- Body - any additional data or information related to the event
